Enjoy on HBO Max all seasons of MANIFEST, a thrilling mystery series

Since its premiere in 2018 MANIFEST has piqued the interest of fans around the world and now its three seasons are available for Latin America and the Caribbean on HBO Max. The series revolves around the characters created by executive producers Jeff Rake, Robert Zemeckis and Jack Rapke, a commercial airliner inexplicably disappears on a transoceanic flight and, even more mysteriously, returns five years after being reported lost at sea. While time has not passed for those on the flight, for their loved ones, years have passed and they have had to learn to live with their loss. MANIFEST is a series that combines elements of science fiction with an event of high drama for its protagonists such as a plane crash and the loss of life it entails, and focuses on the Stone family, fractured by supernatural causes: on the flight are Michaela (Melissa Roxburgh), a police officer with pangs of conscience and doubts about her commitment; her brother Ben (Joshua Dallas), a model father struggling with all those things beyond his control; and Cal (Jack Messina), Ben's terminally ill 10-year-old son, who has only months to live. After landing five years later, but only five hours later for the travelers, they are reunited with Jared Vasquez (J.R. Ramirez), Michaela's former fiancé, who is now a married detective; Grace Stone (Athena Karkanis), Ben's wife who, at first, seems to accept her family's miraculous return; and Olive (Luna Blaise), Cal's twin sister, who is now five years older, but still shares a very special bond with him. As the story unfolds, following the perspective of the passengers and the crew of the plane as they struggle to recover their disrupted lives and relationships, the government continues to investigate how and why this anomaly occurred. But in addition to the mystery about what happened on that flight, there is also a hidden mystery related to what happened to the passengers and why. MANIFEST is a spiritual drama about broken souls trying to reclaim their lives and fit back into the world around them, over the course of 42 episodes the series follows their intersecting personal lives, their connections, as well as the overall mystery and ultimate purpose of their destiny.
